HOT TUB SANITIZATION

REDISCOVER the simple joy of owning a hot tub
THE ALTERNATIVE WAY TO SANITIZE

Hot tub owners shouldn’t have to be weekend chemists. So we created a fresh approach to clean water using proprietary Fresh Mineral Water Technology. You’ll find it in all of our FROG products—and it offers these four advantages:

CLEANER because it kills bacteria two ways—with minerals and a low level of bromine or chlorine

Minerals help keep the pH balanced for CLEARER water that shines

Minerals condition the water for a SOFTER feel

Cartridges are pre-filled for no mess, no guess, no stress, making maintenance EASIER

FROG Serene — set it and forget it.

A combination of bromine with our Fresh Mineral Water to effectively kill bacteria 2 ways. The minerals reduce the amount of bromine you need by 50%. And the pre-filled cartridges mean you don’t have to touch or measure the bromine.

Unlike chlorine, bromine slowly dissolves in hot water so it’s easier to regulate. Plus far less odors.

Bromine is less impacted by pH swings ensuring sanitizing effectiveness.

Soft feeling water that’s easier on your skin, swimsuits and spa surfaces.

Just set it and forget it for weeks at a time.
